This means that if your dog suffers from one or more illness or injury in the same period of insurance, then you must pay a fixed excess for each illness or injury. Also, if the veterinary treatment your dog receives carries on into the next period of insurance and any more periods of insurance, then the fixed excess is applied to the treatment received in each period of insurance and you must pay two or more fixed excess, one for each period of insurance.
 - o **Percentage Excess** – This is calculated after the fixed excess has been deducted and is applied to all claims.
 - o Neither the Fixed Excess or Percentage Excess can be reduced and they can only be increased at the renewal of your policy.
- You must keep your premium up to date.
- This is an annual contract of insurance and you are required to pay the full premium for the period of insurance, however, cancellation rights apply.
